Education

Louisiana State University; Ph.D., Microbiology, May 2019

Dissertation Title: High-throughput cultivation of bacterioplankton from the Gulf of Mexico and genomics of the first cultured LD12 representative

Advisor: Dr. J Cameron Thrash

Central Michigan University; M.S., Biology, 2014

Thesis Title: Strain-level genomic and physiological variation in four *Microbacterium spp.* chromate reducers.

Advisor: Dr. Deric Learman

Miami University; B.A., Microbiology, 2011

Appointments

2020- Postdoctoral Researcher, *University of Chicago*, Dr. Maureen Coleman
2019 - 2020 Postdoctoral Researcher, *University of Southern California*, Dr. J. Cameron Thrash
2014 - 2019 Graduate Research Assistant, *Louisiana State University*, Dr. J. Cameron Thrash
2017 Graduate Teaching Assistant, *Louisiana State University*, BIOL1207R: Introduction to Biology, mCURE Laboratory.
2012 - 2014 Graduate Research Assistant, *Central Michigan University*, Dr. Deric Learman
2012 Graduate Teaching Assistant, *Central Michigan University*, BIO326: Molecular Genetics Laboratory.
2011 - 2012 Student Contractor, *U.S. Environmental Protection Agency*, Supervisor: Dr. Jorge Santo-Domingo
2010 Intern, *U.S. Environmental Protection Agency*, Supervisor: Dr. Jorge Santo-Domingo

Grants and Awards

Grants

2020- Theodore Roosevelt Memorial Fund, "Cryptic diversity and ecosystem stability in the Great Lakes" *American Natural History Museum*, **\$1,600**
2020- Simons Foundation Postdoctoral Fellowship in Marine Microbiology, "Testing the role of fine-scale diversity for local adaptation and population stability in *Synechococcus*", *Simons Foundation*, **\$261,000**
2017 - 2018 Lerner Gray Grant, "Examining the functional differences of two important SAR11 subclades and its insights on how salinity changes may alter global biogeochemical cycles" *American Natural History Museum*, **\$2,500**
2015 - 2016 *LEEC* Research Grant, "Assessment of wetlands on the Louisiana coast using baseline microbial community structure and developing microbial indices", *LA Department of Wildlife & Fisheries*, **\$1,138**

Awards

2018 Graduate Student Association Travel Award, *Louisiana State University*
2018 McDaniel Travel Award, *Louisiana State University* **\$1,000**
2014 - 2016 BioGrads Travel Grant, *Louisiana State University*
2014 Runner-up for Best Graduate Student Poster, *Louisiana State University* BioGrad Symposium
2013 Best Graduate Student Poster, *Michigan Branch of the American Society of Microbiology* Spring Meeting

Invited Conference Talks/Posters

- M.W. Henson**, J. Podowski, K.R. Hunter-Cevera, S.F. Paver, M.L. Coleman. The ecogenomics and distribution of fine-scale populations within *Synechococcus* across coastal and estuarine environments. Ocean Sciences Meeting. February 2022. Poster.
- M.W. Henson**, J.C. Thrash. Fresh and Salty: Cultivating Bacteria from the Coast of Louisiana. American Society of Microbiology General Meeting. June 2017. Talk.
- M.W. Henson**, J. Hanssen, G. Spooner., P. Fleming, M. Pukonen, J.C. Thrash. From Big Boats to Row Boats: Utilizing Human Powered Row Boats to Sample the Mississippi River. LSU Computational Biology Seminar Series. April 2016. Talk.

Invited Seminar Talks

- 2021 Cornell University (Department of Microbiology)
- 2021 Appalachian State University (Department of Biology)

*Undergraduate Mentee

Professional Workshops

- mSystems Thinking Series: Diversity, Equity, and Inclusion in Microbiology (2021)
This mini-conference includes interactive sessions that enable the audience to interact with the speakers during their presentations and small group discussions dedicated to DEI and research topics.
- Physical Sciences Division (PSD) Round Table Talks (2021)
Presentation by University of Chicago EDI professionals and facilitated conversation involving real-life anonymized PSD case studies. The sessions are designed to make space for participants to explore and candidly talk about EDI concepts.
- Microbial Oceanography: Genomes to Biomes. *University of Hawai'i at Mānoa* (2015)
Hosted by the CMORE and SOEST of UHM, this was a month long intensive course exploring the dynamic and fundamental role marine microbes play in shaping ocean ecology and global biogeochemistry.
- Next Generation Sequencing Workshop. Kellogg Biological Station, MI (2013)
Computational thinking and large-scale data analysis on UNIX platforms focusing on mapping, assembly, and analysis of short-read data for resequencing, whole genome, and RNAseq.
- JGI Microbial Genomics and Metagenomics Workshop. Walnut Creek, CA (2013)
Hands-on tutorials, including tutorials for the following tools: IMG, IMG/M, IMG-ER, IMG-EDU, VISTA, GREENGENES, and ARB.
- Mothur and HPCC workshop. *Michigan State University* East Lansing, MI (2013)
Hosted by the MSU Institute for Cyber Enabled Research & Microbiology and Molecular Genetics Department. Hands-on tutorials with Mothur and using the HPCC.

Oceanographic Cruises (Sea Time 82 days)

RV Atlantis, Eastern Pacific Rise, Pacific, 31 days, March 24th-April 25th*

*HOV Alvin cruise

RV Oceanus, Eastern Tropical Northern, Pacific, 21 days, May 4th-22nd 2017

RV Pelican, Gulf of Mexico, 11 days, July 23rd-Aug 3rd 2016

RV Pelican, Gulf of Mexico, 4 days, August 19th-Augst-23rd 2015

RV Pelican, Gulf of Mexico, 8 days, July 28th-August 4th 2015

RV Kilo Moana, Station Aloha, Hawaii, 7 days June 10th-17th 2015
